years, affirmative action has been debated more intensely than at any other time in its 50-year history. Many supporters view affirmative action as a milestone, many opponents see it as a millstone, and many others regard it as both or neither -- as a necessary, but imperfect, remedy for an intractable social disease.

Statistics are supposed to make something easier to understand but when used in a misleading fashion can trick the casual observer into believing something other than what the data shows. That is, a misuse of statistics occurs when a statistical argument asserts a falsehood. In some cases, the misuse may be accidental. In others, it is purposeful and for the gain of the perpetrator.
