STRABISMUS: DIAGNOSIS AND TREATMENT MADE SIMPLE

Strabismus: Causes and Treatments When your child has strabismus, the eyes aren't aligned. One eye may turn in, out, up, or down while the other looks straight ahead. When the eyes aren't aligned, pictures sent to the brain are too different to be fused into one image.

Strabismus: Causes and Treatments

Strabismus, sometimes called "lazy eye," is a common vision problem in children. One eye is not aligned with the other, so they don't move together properly. The eyes may point inward (crossed eyes, or esotropia) or outward (walleye, or exotropia). Strabismus doesn't always cause

Strabismus - Elsevier: Pomeranz: Nelson Instructions

same in all positions while incomitant strabismus is a deviation that changes with position. 2. General Presentation In children, strabismus is a common condition but it can also occur in teenagers and adults. Strabismus is found to be equally established in males and females, and may be genetically influenced.

Approach to Strabismus - Home | Learn Pediatrics

Strabismus surgery, which entails altering the insertion of one or more of the rectus muscles, is most effective in the presence of good stereopsis that encourages fusion postoperatively. In the absence of stereopsis, and therefore fusion, the ocular deviation may recur or persist postoperatively.

Strabismus - an overview | ScienceDirect Topics

Treatment of Strabismus The treatment of strabismus must be tailored to the patient's own functional and cosmetic needs. It can be non-surgical or surgical. Non-surgical treatments include simple observation, wearing appropriate corrective lenses or prismatic glasses, doing orthoptic exercise and fogging or partial occlusion of one eye.

Strabismus: Vol 26, No 3 - Taylor & Francis Online

Strabismus, also known as crossed eyes, is a condition in which the eyes do not properly align with each other when looking at an object. The eye which is focused on an object can alternate. The condition may be present occasionally or constantly. If ...

Strabismus - Wikipedia

If the strabismus is not treated, the eye that the brain ignores will never see well. This loss of vision is called amblyopia. Another name for amblyopia is "lazy eye." Sometimes lazy eye is present first, and it causes strabismus. In most children with strabismus, the cause is unknown.
