

stratified morse theory 1st pdf

Some further important topics in the book are: Morse theory, singularities, transversality theory, complex analytic varieties, Lefschetz theorems, connectivity theorems, intersection homology, complements of affine subspaces and combinatorics. The book is designed for all interested students or professionals in this area.

Stratified Morse Theory: Past and Present David B. Massey In honor of Robert MacPherson on his 60th birthday 1 Introduction In 1974, Mark Goresky and Robert MacPherson began their development of intersection homology theory

Stratified Morse Theory: Past and Present

ON STRATIFIED MORSE THEORY: FROM TOPOLOGY TO CONSTRUCTIBLE SHEAVES HELMUT A. HAMM Abstract. Stratified Morse theory is the generalization of usual Morse theory to functions on stratified spaces. There are versions for the topological type, homotopy type or (co)homology.

(PDF) Stratified Morse Theory in Arrangements

This paper is a survey of our work based on the stratified Morse theory of Goresky and MacPherson. First we discuss the Morse theory of Euclidean space stratified by an arrangement. This is used to show that the complement of a complex hyperplane arrangement admits a minimal cell decomposition.
