### **Sulphonation technology in the detergent industry pdf**

Sulfonation and Sulfation Processes Norman C. Foster, Ph.D., P.E. Introduction Sulfonation and sulfation are major industrial chemical processes used to make a diverse range of products, including dyes and color intensifiers, pigments, medicinals, pesticides and organic intermediates. Additionally, almost 500,000 metric tons per year of lignin

## **Free Sulphonation Technology In The Detergent Industry**

A sulfonate is a salt or ester of a sulfonic acid.It contains the functional group  $R-SO_3^-$ , where R is an organic group.Sulfonates are the conjugate base of sulfonic acids. Sulfonates are generally stable in water, non-oxidizing, and colorless.

## **Sulfonate - Wikipedia**

Mills can use a catalyzed CTMP process with an interstage sulfonation process for aspen pulp to obtain a higher tensile strength and better optical properties. In the design of sulfonation plants, important factor to be considered is need for precise control over gas/liquid contacting.
