Business strategies for sustainable development Based on the book Business Strategy for Sustainable Development: Leadership and Accountability for the 90s, published in 1992 by the International Institute for Sustainable Development in conjunction with Deloitte & Touche and the World

Business Strategy for Sustainable Development

Sustainable development is the organizing principle for meeting human development goals while at the same time sustaining the ability of natural systems to provide the natural resources and ecosystem services upon which the economy and society depend. The desired result is a state of society where living conditions and resource use continue to meet human needs without undermining the integrity ...

Sustainable development - Wikipedia

Abstract An analysis of global statistics shows a substantial increase in flood damage over the past few decades. Moreover, it is expected that flood risk will continue to rise due to the combined effect of increasing numbers of people and economic assets in risk-prone areas and the effects of climate change.
