Biodiversity - The Web of Life Biological diversity - or biodiversity - is the term given to the variety of life on Earth and the natural patterns it forms. The biodiversity we see today is the fruit of billions of years of evolution, shaped by natural processes and, increasingly, by the influence of humans.

Sustaining Life on Earth - CBD

Life on the blue planet is contained within the biosphere, a thin and irregular envelope around the Earth's surface, just a few kilometres deep around the radius of the globe. Here, ecosystems purify the air and the water that are the basis of life. They stabilise and moderate the Earth's climate.
