natural language processing Deep Learning for NLP Best Practices. Neural networks are widely used in NLP, but many details such as task or domain-specific considerations are left to the practitioner.

An Overview of Multi-Task Learning for Deep Learning

Community language learning (CLL) is a language-teaching method in which students work together to develop what aspects of a language they would like to learn. It is based on the Counselling-approach in which the teacher acts as a counsellor and a paraphraser, while the learner is seen as a client and collaborator.. The CLL emphasizes the sense of community in the learning group, encourages ...

Community language learning - Wikipedia

Language learning strategies is a term referring to the processes and actions that are consciously deployed by language learners to help them to learn or use a language more effectively. They have also been defined as "thoughts and actions, consciously chosen and operationalized by language learners, to assist them in carrying out a multiplicity of tasks from the very outset of learning to ...
