A note on the cover image: The cover of The Art and Science of C showed a picture of Patience, one of the two stone lions that guard the entrance to the New York Public Library. Addison-Wesley and I chose that image both to emphasize the library-based approach adopted by the text and because patience is an essential skill in programming.

This book describes the process of analyzing data. The authors have extensive experience both managing data analysts and conducting their own data analyses, and this book is a distillation of their experience in a format that is applicable to both practitioners and managers in data science. Printed copies are available through Lulu.
