

the bipolar teen what pdf

Bipolar disorder, previously known as manic depression, is a mental disorder that causes periods of depression and periods of abnormally elevated mood. The elevated mood is significant and is known as mania or hypomania, depending on its severity, or whether symptoms of psychosis are present. During mania, an individual behaves or feels abnormally energetic, happy, or irritable.

Bipolar disorder - Wikipedia

Bipolar disorder is a serious mental illness. People who have it go through unusual mood changes. They go from very happy, "up," and active to very sad and hopeless, "down," and inactive, and then back again.

Bipolar Disorder: MedlinePlus

Numerous notable people have had some form of mood disorder. This is a list of people accompanied by verifiable source associating them with bipolar disorder (formerly known as "manic depression") based on their own public statements; this discussion is sometimes tied to the larger topic of creativity and mental illness. In the case of dead people only, individuals with a speculative or ...
