Springer Series in chemical physics Series Editors: A.W. Castleman, Jr. J.P. Toennies W. Zinth The purpose of this series is to provide comprehensive up-to-date monographs

chemical physics 86 - Stanford University

Criteria for publication in Chemical Physics are novelty, quality and general interest in experimental and theoretical chemical physics and physical chemistry. Articles are welcome that deal with problems of electronic and structural dynamics, reaction mechanisms, fundamental aspects of catalysis, solar energy conversion and chemical reactions ...

The objective of this work has therefore been to describe the results and current models of surface science spanning a broad gray area between surface physics and surface chemistry with some overlap into each of these disciplines.

VSP 2003. Preface The idea to write this book arose during the participation in several Workshops on Quantum Solar Energy Conversion, organized in the Alps by the European Society for Quantum Solar Energy Conversion (ESQSEC).

Chemical Physics of Nanostructured Semiconductors - PDF

Chemical Physics is an interdisciplinary field at the crossroads of chemistry and physics and is administered jointly by the two departments. The concentration provides students with a broad-based understanding in fundamental molecular sciences, as well as a background for graduate studies in physical chemistry, chemical physics, or molecular engineering.

Chemical Physics < Brown University

Chemical Physics Letters publishes brief reports on molecules, interfaces, condensed phases, nanomaterials and nanostructures, polymers, biomolecular systems, and energy conversion and storage. Criteria for publication are quality, urgency and impact.
