About Lee Castillo. Now I know that I don't fit the traditional congressional stereotype of an old, rich, white lawyer / businessman, but that's the point: Our district isn't made up solely of old, rich white lawyers " So why should that be a requirement for all of our representatives when our government runs best when we have representatives of all races, gender, and economic levels ...

John Hattie developed a way of synthesizing various influences in different meta-analyses according to their effect size (Cohen's *d*). In his ground-breaking study "Visible Learning" he ranked 138 influences that are related to learning outcomes from very positive effects to very negative effects. Hattie found that the average effect size of all the interventions he studied was 0.40.
