Raku ware (æ¥½ç,,¼, raku-yaki) is a type of Japanese pottery traditionally used in Japanese tea ceremonies, most often in the form of chawan tea bowls. It is traditionally characterised by being hand-shaped rather than thrown; fairly porous vessels, which result from low firing temperatures; lead glazes; and the removal of pieces from the kiln while still glowing hot.

Willows are very cross-compatible, and numerous hybrids occur, both naturally and in cultivation. A well-known ornamental example is the weeping willow (*Salix Æ— sepulcralis*), which is a hybrid of Peking willow (*Salix babylonica*) from China and white willow from Europe.. The hybrid cultivar 'Boydii' has gained the Royal Horticultural Society's Award of Garden Merit.

We are a group of the UK's largest and most dedicated collectors. We are always seeking to purchase only quality items of Victorian and Modern taxidermy. The site was launched August 2004 and is the best resource on the internet for the History of British Taxidermy, given the number of taxidermists represented. No other internet site has the same level of detail and content.
