The Doctrine of Chances: Probabilistic Aspects of Gambling by Stewart N. Ethier. Published by Springer, May 27, 2010. Published online at SpringerLink, May 19, 2010.

### **The Doctrine of Chances: Probabilistic Aspects of Gambling**

The "Doctrine of Chances"™ is a doctrine of probability that purports to solve an apparent logical conundrum or contradiction in the law of Evidence. On the one hand, the law of Evidence purports to ban evidence which invites the fact-finder to

### **Comment: The Doctrine of Chances, Brides of the Bath and a**

Three centuries ago Montmort and De Moivre published two of the first books on probability theory, then called the doctrine of chances, emphasizing its most important application at that time, games of chance.

### **The Doctrine of Chances | SpringerLink**

to him that the rule must be to suppose the chance the same that it should lie between any two equidistant degrees; which, if it were allowed, all the rest might be easily calculated in the common method of proceeding in the doctrine of chances. Accordingly, I found among his papers a very ingenious solution of this problem in this way.

CHAPTER 7 ABRAHAM DE MOIVRE, THE DOCTRINE OF CHANCES (1718, 1738, 1756) Ivo Schneider  
The Doctrine of chances is the first textbook for the calculus of probabilities. It constitutes the results of the activities of its author as a private instructor of mathematics.

### **Abraham de Moivre, The doctrine of chances (1718, 1738**

The Doctrine of Chances was the first textbook on probability theory, written by 18th-century French mathematician Abraham de Moivre and first published in 1718. De Moivre wrote in English because he resided in England at the time, having fled France to escape the persecution of Huguenots.

### **The Doctrine of Chances - Wikipedia**

The number of Chances upon two Dice being 36, out of which there is but one chance for two Aces, it follows that the number of Chances against it is 35; multiply therefore 35 by 0:7, and the product 24:5 will shew that the number of throws requisite to that effect will be between 24 and 25. EXAMPLE 2.
