

the engineering of sport pdf

Engineering is the creative application of science, mathematical methods, and empirical evidence to the innovation, design, construction, operation and maintenance of structures, machines, materials, devices, systems, processes, and organizations for the benefit of humankind. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more ...

Engineering - Wikipedia

Sports engineering is a fast growing field of engineering which encompasses the design and production of sports equipment and facilities, performance measurement and athletic feedback systems, and the study of kinematics, dynamics and biomechanics as they pertain to sport. The field overlaps other fields of science and engineering, including physics, mechanical engineering, electrical ...
