The Field: The Quest for the Secret Force of the Universe

The Field: The Quest for the Secret Force of the Universe seemed promising and interesting to me at first glance because of author Lynne McTaggart's angle. She tries to show that certain questionable topics, such as linking quantum physics to the somewhat New Age-ish idea that every single thing in the universe is connected, can actually be shown to be true via proper scientific research (double-blind, other researchers replicating the methods and getting the same results, etc.).

That energy surrounds us; when we die, that energy joins with all the other

The Field The Quest For The Secret Force Of The Universe

The Field suggests a far more expansive view of the world and living things like us. It demonstrates that the essential communication mechanism of the universe is quantum frequency connected by a giant matrix – a field of fields called the Zero Point Field (see page 5). This pulsating energy field is the central engine of our being and our consciousness.
