Grassroots Mapping is a series of participatory mapping projects involving communities in cartographic dispute. Seeking to invert the traditional power structure of cartography, the grassroots mappers used helium balloons and kites to loft their own “community satellites” made with inexpensive digital cameras.

The wise use movement in the United States is a loose-knit coalition of groups promoting the expansion of private property rights and reduction of government regulation of publicly held property. This includes advocacy of expanded use by commercial and public interests, seeking increased access to public lands, and often opposition to government intervention.
