About Us. The Department of Neurosurgery at Massachusetts General Hospital performs more than 2,500 procedures each year, safely removing tumors considered inoperable by other hospitals.

Neurosurgery - Massachusetts General Hospital, Boston, MA

A hospital is a health care institution providing patient treatment with specialized medical and nursing staff and medical equipment. The best-known type of hospital is the general hospital, which typically has an emergency department to treat urgent health problems ranging from fire and accident victims to a heart attack. A district hospital typically is the major health care facility in its ...
