(EG). To the extent that greater freedom and capabilities improve economic performance, human development will have an important effect on growth. Similarly, to the extent that increased incomes will increase the range of choices and capabilities enjoyed by households and governments, economic growth will enhance human development.

### **HUMAN DEVELOPMENT AND ECONOMIC GROWTH**

Second, it is difficult that human capital itself independently contributes to individual development and national economy growth. According to Ashton & Green (1996), it is necessary that the link between human capital and economic performance should be considered within a social and political context to precisely measure the human capital.
