Twenty-five years after its initial publication, The Making of the Atomic Bomb remains the definitive history of nuclear weapons and the Manhattan Project. From the turn-of-the-century discovery of nuclear energy to the dropping of the first bombs on Japan, Richard Rhodes's Pulitzer Prize-winning book details the science, the people, and the socio-political realities that led to the development of the atomic bomb.

Preface to The Making of the English Working Class 3 cohesion over the same years because certain antagonisms were resolved (or faded into relative insignificance ) in the face of an insurgent working class. Thus the working-class presence was, in 1832, the most significant factor in British political life. The book is written in this way.

The Making of The Principal: Five Lessons in Leadership Training By Lee Mitgang For more than a decade, The Wallace Foundation has worked with states and districts to develop and test ways to improve school leadership in order to promote better teaching and learning. Improving the often-weak training of principals has been central to that work.
