ELECTRICAL ENGINEERING, B.S. - Academic Advising

medical electrical systems, which are intended by the manufacturer for use in home care applications usually without continual professional supervision and temporarily in the clinical environment.

American National Standard - The AAMI Store

The drawing shows the structure of the heart and the electrical activity during one cycle. The pumping action is initiated by a nerve impulse at a point called the Sinus Node(1). This impulse spreads out, causing the contraction of both atria(2), and gives rise to the P wave. The atria contract pumping the blood into the ventricles.
