Pillar is a mountain in the western part of the English Lake District. Situated between the valleys of Ennerdale to the north and Wasdale to the south, it is the highest point of the Pillar group (some dozen fells clustered round it). At 892 metres (2,927 feet) it is the eighth-highest mountain in the Lake District. The fell takes its name from Pillar Rock, a prominent feature on the Ennerdale ...

A column or pillar in architecture and structural engineering is a structural element that transmits, through compression, the weight of the structure above to other structural elements below. In other words, a column is a compression member. The term column applies especially to a large round support (the shaft of the column) with a capital and a base or pedestal which is made of stone, or ...
