

the motion of bubbles pdf

A motion comic (or animated comic) is a form of animation combining elements of print comic books and animation. Individual panels are expanded into a full shot while sound effects, voice acting, and animation are added to the original artwork. Text boxes and sound effect bubbles are typically removed to feature more of the original artwork being animated.

A soap bubble is an extremely thin film of soapy water enclosing air that forms a hollow sphere with an iridescent surface. Soap bubbles usually last for only a few seconds before bursting, either on their own or on contact with another object. They are often used for children's enjoyment, but they are also used in artistic performances. Assembling several bubbles results in foam.
