An improvised explosive device (IED) is a bomb constructed and deployed in ways other than in conventional military action. It may be constructed of conventional military explosives, such as an artillery shell, attached to a detonating mechanism. IEDs are commonly used as roadside bombs.. IEDs are generally seen in heavy terrorist actions or in asymmetric unconventional warfare by insurgent ...

As a follow-up to Tuesdayâ€™s post about the majority-minority public schools in Oslo, the following brief account reports the latest statistics on the cultural enrichment of schools in Austria. Vienna is the most fully enriched location, and seems to be in roughly the same situation as Oslo. Many thanks to Hermes for the translation from Unzensuriert.at:

Included in the list below is a brief summary of the cases which have been concluded since the end of 2006. It should be noted that, as a general rule, a defendant is entitled to a one third discount on his sentence if he pleads guilty at the earliest opportunity, with a sliding scale for guilty pleas which are entered later than that.
