Section 2: A summary of the research and literature on creativity 2.1 Historical overview Theories and ideas about creativity stem from far back in history, unsurprising as Ryhammer & Brolin (1999) point out, given that the development of new ideas and original products is a particularly human characteristic.

### **An analysis of research and literature on CREATIVITY IN**

on the concept of creative Darwinism also provides insight into this aspect of the creative thinking processes. Creative Darwinism asserts that creativity is a stochastic combinatorial process under which multiple

ideational variations emerge in an individual's mind, and then a subset of them are selected for preservation and execution.
