cultural phase when man lived a settled life with domesticated animals and practice of agriculture and the manufacture of pottery, it is common for many researchers to refer to this phase as "Neolithic-Chalcolithic". These regional expressions of early copper-using cultures thus have names not used in Europe or elsewhere.

The period when a culture is written about by others, but has not developed its own writing is often known as the protohistory of the culture. By definition, [1] there are no written records from human prehistory, so dating of prehistoric materials is crucial.

### Prehistory - Wikipedia

prehistory is the domain of academic fields with the Greek form arche- "beginning" or paleo- "old" attached. Thus, there are fields like archaeology, paleobotany, and paleontology (dealing with the time before people) that look at the world from before the development of writing. As an adjective, prehistoric tends to mean before urban
