

the problem of consciousness pdf

The hard problem of consciousness is the problem of explaining how and why sentient organisms have qualia or phenomenal experiences—how and why it is that some internal states are felt states, such as heat or pain, rather than unfelt states, as in a thermostat or a toaster. The philosopher David Chalmers, who introduced the term "hard problem" of consciousness, contrasts this with the "easy ...

Journal of Consciousness Studies 2(3):200-19, 1995. This is the paper where I introduced the "hard problem" of consciousness. I distinguish between the easy problems and the hard problem, and I argue that the hard problem eludes conventional methods of explanation.

Consciousness — David Chalmers

Consciousness is the state or quality of awareness or of being aware of an external object or something within oneself. It has been defined variously in terms of sentience, awareness, qualia, subjectivity, the ability to experience or to feel, wakefulness, having a sense of selfhood or soul, the fact that there is something "that it is like" to "have" or "be" it, and the executive control ...
