constructions of the region in the regional novel. The discrepancies and dichotomies in the invocation of the "region" in various literary traditions will be examined and interrogated. In this connection, two distinct kinds of questions can be asked about the world created inside the literary texts.

What Is a Regional Novel? A regional novel attempts to depict a specific geographic region and the people that inhabit it. A regional novel is typically set in a single area of a country and portrays the customs, culture, historical background, dialect and behavior of that region.

### **What Is a Regional Novel? | Reference.com**

The regional novel is a genre of fiction that is set in a recognisable region. It describes features distinguishing the life, social relations, customs, language, dialect or other aspects of the culture of that area and its people. Fiction with a strong sense of geography, topography or landscape is also covered by this definition.

The setting is particularly important in regional literature. In literature regionalism refers to fiction or poetry that focuses on specific features, such as dialect, customs, history, and landscape, of a particular region (also called "local colour"): "Such a locale is likely to be rural and/or provincial."
