

the renderman companion a pdf

Although dated, "The Renderman companion" is a mandatory reference for all Renderman users. This book describes and explain all the aspects of the Renderman interface (in a no specific implementation way) and teach the art of shader programming, illustrating it with high quality color

The RenderMan Companion: A Programmer's Guide To Realistic

"The RenderMan Companion" is more of a reference book where "Advanced RenderMan" explores advanced topics with some tutorial components and limited reference, picking up where the Companion left off. Even the authors of "Advanced Renderman" recommend that you keep this book handy. Read more.
