The Riemann Hypothesis was posed in 1859 by Bernhard Riemann, a mathematician who was not a number theorist and wrote just one paper on number theory in his entire career.

A Friendly Introduction to The Riemann Hypothesis

PROBLEMS OF THE MILLENNIUM: THE RIEMANN HYPOTHESIS 3 and proved the identity $\zeta'(x) = -\log[x]!$. From this identity, he finally obtains numerical upper and lower bounds for $\zeta'(x)$, $\zeta''(x)$ and $\zeta'''(x)$.

Popular variants of the Chebyshev method, based on the integrality of suitable ratios of factorials, originate much later and cannot be ascribed to Chebyshev.

THE RIEMANN HYPOTHESIS 5.5. Final Comments

In this section I will comment on possible future developments in Arithmetic Physics.

These comments are on two levels. At the first level there are firm expectations.

At the second level there are speculations. Starting with the first level, some comments on RH. Using our new machinery, RH and the mystery of γ were resolved.

PRIME NUMBERS AND THE RIEMANN HYPOTHESIS

The Riemann hypothesis for Hilbert spaces of entire functions [2] is a condition on Stieltjes spaces of entire functions which explains the observed shift in zeros and which implies the Riemann conjecture if it can be applied to the Euler zeta function.

Riemann has been back in the news lately, thanks to an announcement that his nearly 160 year old hypothesis might be solved. Public domain image courtesy of Wikimedia CC. At the 2018 Heidelberg Laureate Forum (HLF), Sir Michael Atiyah gave a lecture in which he claimed to have found a proof for the Riemann hypothesis.

Riemann's Hypothesis Proof

His purported proof of the Riemann Hypothesis should not be taken seriously. Other recent fiascos include his ludicrous claim of a 12 page proof of the Feit-Thompson Theorem, his asserted proof that there is no complex structure on the 6-sphere, and his talk at the ICM.

“The Riemann Hypothesis” by Michael Atiyah “ Preprint

Proving the Riemann hypothesis in only 5 pages, I do not think it would be possible. Otherwise, I might only say $20 \approx 80$ and $16212 + 29447 = 15.7$ about my work on the Riemann hypothesis.
