READ ONLINE <http://www.howardhughessuccessacademy.com>

This online presentation and discussion covers the science behind a subset of the 2018 Explore Science: Earth & Space toolkit activities. After a brief overview of the showcased activities and associated materials, Laura Peticolas, Ph.D. a space scientist and science educator, will dive deeper into the underlying science concepts and connections to current and future NASA missions.

Online Workshop: The Science Behind the 2018 Explore

After a brief overview of each activity and its resources, our guest presenter, an astrophysicist and science educator, will facilitate a discussion of how NASA scientists use advanced space-based telescopes and the laws of physics to make discoveries about stars, exoplanets, and other astronomical objects beyond the solar system.
