1. Fick's 1st law refers to mass transfer by diffusion at steady state. 2. Molecular diffusion is a phenomenon analogous to heat transfer by conduction. 3. The resistance to mass transfer increases linearly with diffusivity. 4. Mass diffusivity has the same units as thermal diffusivity and kinematic viscosity. 5.

An Integrated Approach to Policy Transfer and Diffusion Adam J. Newmark ABSTRACT This article reviews the existing literature on policy transfer and diffusion and offers a more integrated theory for examining the spreading of policy. Typical studies have treated each as separate, yet they are similar in many respects. ...
