Translate a PDF file using software. If you often need to translate PDF files, you may want to invest in professional translation software or service to do it for you. If you only need it occasionally, a free service might be just what you need. One such service for occasional use is DocTranslator. Itâ€™s a free, web based document management service that can translate a PDF file to and from any of 104 languages.

### **How To Translate a PDF Document - Tech Junkie**

Doc Translator uses the awesome power of Google Translate to translate your documents. Why re-invent the wheel? Doc Translator relies on the ever-improving abilities of the Google Translate service to process the

text from your documents and return it in the language you need.

### **Free Online Document Translator - Preserves your document**

PDF has no real concept of sentences, paragraphs, articles, etc. and at best, heuristics can be used by Acrobat to allow simple text edits. When you get to translation, you are effectively replacing all the text with content that very likely uses either more or fewer characters and space.
