

the unmet need for pdf

Unmet Need for Contraception in Developing Countries: Examining Women's Reasons for Not Using a Method n Demographic and Health Surveys in 52 countries between 2005 and 2014 reveal the most common reasons that married women cite for not using contraception despite wanting to avoid a pregnancy.

Unmet Need for Contraception in Developing Countries

Put another way, these women are potential users of contraception. This concept of unmet need has influenced the development of family planning programs for decades, and several years ago unmet need was added as an indicator to Millennium Development Goal 5, improving maternal health.

Unmet Need for Contraception: Fact Sheet – Population

In the past, definitions of unmet need also used information from the contraceptive calendar and other questions that were not included in every survey – which led to unmet need being calculated inconsistently. The definition of unmet need was recently revised in 2012, as explained in Revising Unmet Need for Family Planning. The revised definition of unmet need produces similar, although slightly higher, levels of unmet need compared with the original definition.
