THEORY AND EXPERIMENT IN THE ANALYSIS OF STRATEGIC

But we cannot be continuously mindful in all that we do. In constructing formal theory we try carefully to avoid confusing if-then with if-and-only-if, statements, but when we leave our closet, we easily slip casually into this confusion, theorists and experimentalists alike.

Theory and experiment: What are the questions

The combination of theory and experiment elucidates the remaining challenges in developing further improved catalysts, often involving scaling relations among reactive intermediates. This understanding serves as an initial platform to design strategies to circumvent technical obstacles, opening up opportunities and approaches to develop higher-performance electrocatalysts for a wide range of reactions.

Combining theory and experiment in electrocatalysis

The transport properties of disordered solids have been the subject of much work since at least the 1950s, but with a new burst of activity during the 1980s which has survived up to the present ...

Core Level Spectroscopies For Magnetic Phenomena: Theory

This is a revised edition of a classic and highly regarded book, first published in 1981, describing the status of theory and experiment in general relativity. This book offers a comprehensive survey of the intensive research and testing of general relativity that has been conducted over the past three decades.

information, via theory and experiment. We predict the incidence of bargaining failures (strikes") and payoffs in each state by combining mechanism design and focal point approaches. Strikes are common in states with lower surpluses (pies") and strike incidence is decreasing in the pie size. Subjects reach equal splits when strikes

The Einstein equivalence principle and the foundations of gravitation theory are considered, taking into account the Dicke framework, basic criteria for the viability of a gravitation theory, experimental tests of the Einstein equivalence principle, Schiff's conjecture, and a model theory devised by Lightman and Lee (1973).
