MacIntyre's critique of liberalism relies crucially on a distinctive moral particularism, for which morality and rationality are fundamentally tradition-constituted. In light of this, some have detected in his work a moral relativism, radically in tension with his endorsement of a Thomist universalism.

A Tradition of Change - The Goat Locker (USN/USCG)

Rationality is not a matter of "œologicality", i.e., of sticking to a given logical or Kuhnian framework through thick and thin. Rather, it is a matter of adapting appropriately to changing circumstances. Like Newtonian force, rationality has to do with change, not maintenance of the same state.

Historicist Theories of Scientific Rationality (Stanford)

possible payoffs are known to some players but not others. Including this possibility would not change the principal conclusions below. In fact, it would make the concept of rationality more difficult to define straightforwardly, as in some types of game theory (Sugden, 1991).
