Bipolar Disorder - ParentsMedGuide.org

This course is a suggested foundational course for all other Center for Loss courses. However, we realize that for certain caregivers, taking just one or two of our specialty courses (such as Helping Children and Adolescents Cope with Grief) without first completing Comprehensive Bereavement Skills Training may make the most sense.

Adolescence (from Latin *adolescere*, meaning 'to grow up') is a transitional stage of physical and psychological development that generally occurs during the period from puberty to legal adulthood (age of majority). Adolescence is usually associated with the teenage years, but its physical, psychological or cultural expressions may begin earlier and end later.
