

two person zero sum pdf

For a two-person zero-sum game, the payoff function of Player II is the negative of the payoff of Player I, so we may restrict attention to the single payoff function of Player I, which we call here A .

GAME THEORY - UCLA Department of Mathematics

The simplest type of competitive situations are two-person, zero-sum games. These games involve only two players; they are called zero-sum games because one player wins whatever the other player loses.

Two-Person Zero-Sum Games: Basic Concepts | NEOS

In this section we take a linear programming perspective on computing the value of two-person, zero-sum strategic games that is known from the literature [12].

(PDF) Zero-Sum Two Person Games - ResearchGate

If A plays row 1 with probability 0, row 2 with probability .6 and row 3 with probability .4 they are guaranteed an average payoff of at least .2. If B plays row 1 with probability .4, row 2 with probability .6 and row 3 with probability 0 they guarantee that A has an average payoff of at most .2. These are linear programming duals of each other.

Notes on two person zero sum games - Lehigh University

two person zero sum game (without a saddle point) You have observed that in game situations which have a saddle point(s) are provided with an adequate theory of how best to play the game.
