

type and typography 2nd pdf

Type is a catchall term used to refer to a collection of letterforms. Type operates on two levels: first, the words carry the written meaning; second, the type selection, or font, contributes to the

Type and Typography - RISD Writing Center

Typographic Terms (continued) Glyph The basic building block in typesetting is a glyph—a letter, numeral, or symbol; groups of glyphs together are called fonts. One or more fonts sharing particular design features make up a family; Adobe Myriad Pro, for example, is the name of a type family.

Typographic Terms - adobe.com

The second section, text, considers the massing of letters into larger bodies. Text is a field or texture whose grain, color, density, and silhouette ... gridded cases hold fonts of type and spacing material. Capital letters are stored in a drawer above the minuscule letters.

Typography is what language looks like.

The second is the continual refinement of those symbolic forms, leaving a legacy of 26 letters in both capital and lower-case varieties, the concept of a small space between words and a left-to-right reading direction.
