Role of Earthworms in Vermitechnology - ijat-aatsea.com

Vermitechnology. Clarification is needed for terminology used with the terms worm castings and vermicompost. The term "vermicompost" is used much like "compost". Most people have no idea of how it is going to perform until they use it. Vermicompost contains worm castings and other organic matter that has been partially or fully composted.

Vermitechnology - Vermi Technology Unlimited

Earthworms and vermitechnology. Sharma et al. gland cells that secrete material to form cocoons. The wide band (clitellum) that surrounds a mature breeding earth-worm secretes mucus (albumin) after mating. Sperm from another worm is stored in sacs. As the mucus slides over the worm, it encases the sperm and eggs inside. After slipping

Earthworms and Vermitechnology – A Review

The present world is full of machines and its pollution. These pollutions and its problem should be reduced and solved only by the replacing of the chemicals with the natural products.

Vermitechnology Essay – Free Papers and Essays Examples

training programmes, establishment of vermitechnology units and culture distribution to tribal women farmers. Farmers have been distributed literature on the technology and after care of the units so established. The follow up visits were also conducted to see the success of units so established, feed back and further educating the farmers.

Vermitechnology Based Tribal Women Empowerment for

The vermicompost may be used for farming, landscaping, to create compost tea, or for sale. Some of these operations produce worms for bait and/or home vermicomposting. Some of these operations produce worms for bait and/or home vermicomposting.

Vermicompost - Wikipedia

A. Vermitechnology Vermiculture is the process of breeding worms. Growers usually pay for their feedstock, and the worm castings are often considered a waste product. Vermiculture is the culture of earthworms. The goal is to continually increase the number of worms in order to obtain a sustainable harvest.

Vol. 3, Issue 3, March 2014 Decentralised Approach for

of biogas and vermitechnology schemes. By combining these two processes, a higher extent of energy recovery can be achieved. In this paper, we consider a biogenic waste treatment system based on the simultaneous use of biogas and vermitechnology. Materials and methods Agricultural wastes (cattle manure, chicken manure, swine
