The proposed regulation would affect such association health plans, health coverage under these health plans, groups and associations of employers sponsoring such plans, participants and beneficiaries with health coverage under these plans, health insurance issuers,

614 Proposed Rules Federal Register

Many people are exposed to heat on the job, in both indoor and outdoor heat environments. Operations involving high air temperatures, radiant heat sources (e.g., sunlight, hot exhaust), high humidity, direct physical contact with hot objects, or strenuous physical activities have a high potential for causing heat-related illness.
