the media, and information and communication technologies and their impact on and use as an instrument for the advancement and empowerment of women as a priority theme at its session in 2003.

Information and communication technologies and their

less feminine. Hispanic women saw the lack of fit between them and a computing culture mostly due to the perception, by peers and teachers, that their presence was due to diversity initiative and not due to academic achievements. Hispanic women felt disrespected because they were rather fashionable and thus considered less intelligent compared to other women.
